

I would like to voice my opposition to the LPFM option as it currently stands. As a supporter and listener of KLOVE on 90.7 I have found it to be the only radio station in this area that provides the type of music I prefer to hear. As a Youth leader I have also found it very helpful in providing me with a radio station that is positive and that addresses issues that the youth of today need to hear and to talk about. This has given them something to discuss and that also helps keep them out of potential problems. Given the other options that are on the radio I cannot help but feel that it is imperative that we keep national radio stations on line and on the air. It also gives the listeners in Va a sense of unity with other parts of the country by hearing them. Thank you for taking time to read this and for allowing me the opportunity to voice my opinion. That is truly what makes America Great.
Respectfully,
Kenneth M. Somerset
